Super Slant Produce Shelving System:

Aluminum produce shelving designed to make a wall produce case look full, yet carry relatively low inventories of produce to help reduce shrink. Super slant shelving significantly reduces shelving bleed-through by reducing the carrying capacity of the shelving, allowing shelving to look fuller. System has been proven to significantly reduce shrink, maintain proper air flow, and provide a fully stocked look.

Bottom of case well bins have adjustable dividers and space fillers to increase stocking flexibility in the bottom of the cases.

Use "Wet" shelving for stores with misting systems to allow for better moisture permeation.

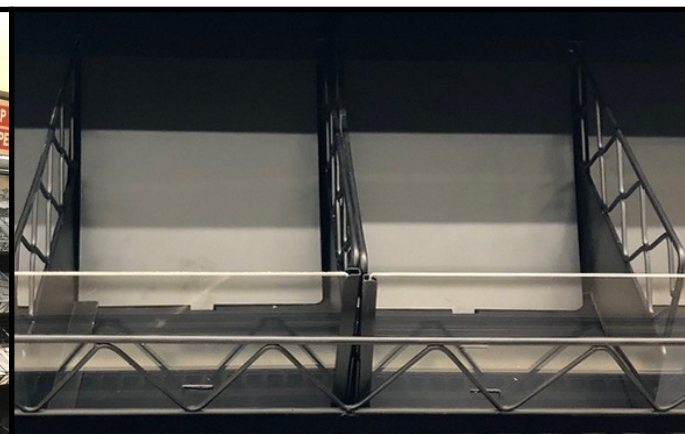

4' Super Slant Shelving Kits - Includes Shelves, Fencing, and Well Bins:

Part #:	Wall Case Type	Case Section Type: Wet/Dry	Shelf Sizes per 4' Section:	Shelving Pitch Angle:	Vertical Dividers per Shelf	Shelf Fence Height - Zig Zag Fencing	Well Bins with Adjustable Product Load:

Available Options:

Clear Plastic Fencing (instead of zig zag aluminum fence)

Clear "ORGANIC" Embossed Green Plastic Fencing (instead of zig zag fence)

Vertical Organic section case divider - Clear or green plastic divider
- Keeps Organics from touching non-organics

Small Items Fencing - clear plastic fence that inserts behind aluminum zig zag shelf fencing to hold small items from falling through fencing.
